### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John D. Goodhue on September 28, 2006.

The application has been amended as follows:

Cancel claims 16 and 17.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Belman (US 6,873,028) discloses a chip resistor having symmetrically attached resistive foils on top and bottom surfaces of its substrate.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: allowance of claims 1-9 and 11-14 is indicated because the prior art does not teach or fairly suggest all of the limitations of the claimed invention as noted in claims 1 and 14, where the first and second resistor foils have the same characteristic and configuration specified in claims 1 and 14, each is attached to one of the opposite surfaces of a substrate having a modulus of elasticity and thickness as specified in claims 1 and 14, also connected to one another, the resistive values, the resistive foil patterns, the specified substrate are selected to provide a cumulative effect of reduction of resistance change due to power. The Applicants remark filed on January 03, 2006 are incorporated herein by reference and made a part hereof as though they were fully written, are persuasive to the issue of patentability for other claims. Particularly, in Zandman patent, both of the foils do not have the same resistive values or TCR or are not intended to be heated equally when power is applied thereby and in Belman, there is no specified thickness, TCR values for the foils and/or the substrate, and no resistive patterns.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
